

Office Supply Exchange

On April 21, 2006, Georgia Tech's Earth Day hosted its very 1st Annual Office Supply Exchange! It was a huge success, so it became an annual activity at our Earth Day celebrations.

Thanks to all of the departments that donated office supplies to our program. We saved the Georgia Tech community **\$17,362.40** by reusing what supplies that other people did not want or need anymore.

We collected over **1600 items** for our Earth Day participants to shop through, including **166 printer and toner cartridges**, **186 binders**, and **92 file folders**.
